Do you want modifications to this design

3. Custom Design Set – Free Quote

A Custom Design Set is a full set of construction plans as per the Full House Plan Set, however we also will make custom changes as per your requirements. When you request a change to a plan, example room sizes, window changes, layout changes etc our Custom Design Team need to redraw all the plans to reflect your changes. This is very labour intensive and time consuming as creating a full set of working drawings with roof changes and bracing changes can take 5-7 days labour. Even a small change like a window change will still need all the plans to be altered. However our discounted Custom Design Set is dramatically cheaper than most Design Companies

Includes: (Customised to your requirements)

- Floor plan with all dimensions nominated.
- Elevation Plans
- Electrical Plans
- Bracing Plans
- Tie Down Details
- Building Notes Page
- Sketch Plan
- 3D Render of Façade
- All the above plans are classified as "Full Working Drawings"
- A site plan can be provided if required for a cost of \$250.00.
- Please contact us with any questions for Custom Design Set and we will call you back to discuss it further
